

## Dual Language/Immersion Program Action Plan

Using the *Guiding Principles for Dual Language Education* from the Center for Applied Linguistics (reprinted in handouts for this conference and online at [www.cal.org/twi/guidingprinciples.htm](http://www.cal.org/twi/guidingprinciples.htm)), decide as a team which strands and/or principles to focus on as you start or expand your dual language/immersion program. Outline the actions that need to be taken and what steps will be involved, indicating who will be responsible and when the action will be completed. Additional Action Plan forms are available on paper or electronically as a Word document.

Focus (Strand# and/or Principle#)	Action to be taken	Steps involved	Lead person(s)	Date(s) to be completed
