

Session 4: Eat Your Vegetables

Organisms and Habitat Field Notes

Name of Organism	Location it was found	Qualitative (Five Senses)	Quantitative (number found)

Sketches of Habitat and Organisms	Questions for Later
--	----------------------------

Check for Understanding

- 1) Describe the differences in the algae and sponges used in the experiment.
- 2) What types of algae live on the reef?
- 3) Why are some types of sponges and algae eaten and not others?
- 4) What would happen to the reef if the herbivores were removed due to overfishing or disease?
